

# SUN

The Sun is the source of your vital power, principally ruling the brain and heart in man and woman. Its sign location (zodiac Sun sign), aspects to other planets, and house position indicate the vitality of the body, especially in males. The Sun is thus the indicator of health in males, while the Moon governs health matters in females. However, the Sun and Moon are important in health matters in both sexes. The Sun signs and Moon signs at birth, along with their aspects and positions, are regarded as the "fountains of life on Earth". The Sun is one of the vital centers in a star map, along with the Moon, Ascendant (rising sign), and Midheaven (tenth house).

The power of the Sun and how it radiates within you can be thought of as light rays emanating from a light bulb, powering into your body. The Sun signs are divided into the Four Elements: FIRE (Aries, Leo, Sagittarius); AIR (Gemini, Libra, Aquarius); WATER (Cancer, Scorpio, Pisces); and EARTH (Taurus, Virgo, Capricorn). All males born with the Sun in fire signs have the best prospects for good vitality, as light radiates most freely in a body composed of the fire element. Light also radiates freely in air, and these natives are the next strongest, but air sign people become weakened by worry and nervousness. They need rest to recuperate. The earth element for sunlight is linked with the densest matter, gives tenacity, wear and tear, rather than vitality. These individuals tend to recovery slowly from their illnesses. The water element for transmission of sunlight gives the weakest constitution, being a more difficult medium to manifest light (except Scorpio).

The Sun is the giver of life, but is quite impersonal in its influence that the average man or woman rarely contacts its higher qualities in a conscious or positive sense. Planetary aspects, even if hard (square or opposite), are better than no aspects at all, as in the latter, the native is hardly touched at all by its influence. This fact is the reason "Sun sign" prophecies found in the tabloids and daily paper make no sense to some individuals. When well placed, however, it signifies will power, authority, and self-reliance. If afflicted by the Moon or Ascendant, it will make the health feeble and the vitality low.

The Sun rules the metabolic fires of your body's cells. Its placement represents how that energy is needed and distributed. This topic has been termed PHOTOBIOLOGICS by the author. All biologic life is ruled by the Sun. Your body requires copious quantities of light from many sources to

maintain your health, vitality, and beauty. Each Sun sign has recommended foods that tend to foster vitality, as well as dietary pointers, and warnings about certain foods that will disturb your body's distribution of the Sun's vital rays, indicative by your Sun's zodiac placement (the season of the year in which you were born).

In terms of the Zodiac, the twelve signs represent the Grand Man, and rule the different parts of the body, from head as in Aries, to toe as in Pisces. Thus, there is a zodiacal rulership over the body and its organs. In terms of Sun signs and rising signs, it represents where disease potential exists. The locations and transits represent how an organ or bowel will be afflicted since these are rotating, dynamic entities. The houses at birth, signify why disorders will manifest.

Inharmonious aspects to the Sun are angles and locations of the other planets in their orbits in relationship to the Sun. They are called afflictions. For example, if the Sun is afflicted by a hard angle to the Moon, the health will be weak, and the rays of the Sun will be on the cold side, the eyesight will suffer.

ANATOMY AND PHYSIOLOGY: Vitality, the absorption of prana through the spleen, the immune system, heart function, spine and back, eyesight, individual cellular metabolism, the blood and oxygenation, consciousness.

## SUN in PISCES

The ruler of Pisces is Neptune, planet of the mysterious, illusive, spiritual and sensitive aspects in man. These natives are apt to be idealistic, sensitive, and responsive to the thoughts and feelings of others. Their temperament varies from being strongly optimistic to acutely pessimistic. They are generally not ambitious for material gain, preferring human interactions. Their charm, humor and sympathy is what opens the gates of opportunities for the native. Their dramatic abilities lead them to develop art, music or poetry.

Each sign has internal, external, and structural rulerships. Internally, Pisces rules the lymphatic system, synovial fluids, and functions of the glands in general. Externally, it rules the feet and toes and structurally the bones of the feet.

Piscean colors are pale green, purple, rose, and gray-blue. These

individuals are benefited by the color yellow. The Piscean birthstone is the aquamarine. These natives should remember only to wear this stone if they want that particular influence to come into their life. Flowers for Pisces include the gardenia, orchid, lilac, wisteria, water lily, poppy, and pansy.

#### BENEFICIAL BACH FLOWER ESSENCES:

Hornbeam: Tiredness, weariness, mental and physical exhaustion.

Scleranthus: Changeable, indecisive, suffers from extreme moods and energy, does not seek advice of others or physicians.

HOMEOPATHIC POLYCREST REMEDY: Veratrum album- Used in the treatment of heat exhaustion, headache, nausea, cramps.

CELL SALT - Ferrum phosphoricum

HEALING NOTE: B

AROMAS: Apple, camphor, cardamom, gardenia, hyacinth, jasmine, lily, mugwort, myrrh, palmarosa, sandalwood, vanilla, ylang-ylang.

PHOTOBIOLOGICS: Pisceans should avoid intoxicants, as this is one of the addictive signs. Many foods do not agree with this sign, especially milk and dairy products, leading to lymphatic stasis and phlegm. Fish is their best source of protein. Lemon and lime juices, cranberries and apple juice, offset lymphatic stasis. Their best grains are brown rice, bulghur wheat, and quinoa, all being of the fine lime green color when viewed under a prism. Cabbage, celery, and green juices will keep their lymphatic system flowing, along with good breathing and exercise. Tubers like potato and sweet potato are good starch foods. The native should eat fresh salads daily to keep the bowels in order.

SUSCEPTIBLE AREAS: Sex organs, thighs

AFFLICTIONS: Extravagance, indulgence and feasting leading to impure blood, intestinal putrefaction, obesity and cancer; fond of alcohol; edema, lymphatic stasis, swollen ankles/feet, sores, ulcers; insomnia; tendency to catch pneumonia; corns, bunions; slothful, neglectful.

## MOON

Your Sun sign indicates constitutional vigor and its elemental quality (fire, air, water, earth), your Moon sign shows the flow of this vital force and your health. The Moon predominates health matters in the female chart, as well as those caught under the influence of its emotional force. A disturbed flow of the vital force, ruled by the Moon, will cause fluctuations in vitality and ultimately disease. Your Moon sign and its aspects shows your instinctive, reflex actions, and your habits (good or bad). Moon patterns are reactions and habits set up in childhood, and become fixed unless acted upon by the individual themselves. Its location, aspects, and afflictions are one of the most important factors to consider in the health chart.

The Moon represents the personal habits, suffering, worry, and disease tendencies. The Moon sign is always very sensitive and represents the weakest part of the body. Operations should not be performed when the Moon is passing through the native's sign. The Moon rules the body's fluids, lymphatics, and the natural power of each organ, including its expulsive or detoxifying powers. Acquired and destructive habits are generally under the influence of the Moon sign. It rules the period of life from one to seven years, when so many destructive habits and health patterns are acquired, as for example from the parents or guardians. It shows what type of habits you may develop and how they affect your health.

Moon diseases today predominate the health chart. The Moon has a special affinity for the eyes and eye disorders, defects and errors of accommodation, putrefaction of the bowels, autointoxication; and disorders of the breasts, womb, and stomach. Moon forces harden and crystallize the body with age. Moon dominated persons are inconstant, restless, changeable, and variable, and succumb easily to infectious illnesses, colds and flu. The Moon rules the stomach. Today we see swollen abdomens due to excessive eating. Full, round bellies with visual defects reflect just how Moon bound and problematic the aspects of this orbital body is in the health astrological chart.

The Moon afflicts other planets and signs by its oppositions and squares. Ill-aspects show an inclination to little or no exercise. The less afflictions in the female nativity, the better a chance of a long and prosperous life. The Moon sign signifies diseases that are acquired after birth, particularly due to indiscretions, bad habits, and emotional proclivities. It rules the natural powers and immunity. Cancer, the malignant disease, is a Moon disease, and is prevalent in our mood-based society of foul language, nasty thoughts, toxic diet, and bad habits.

It should be noted whether the Moon is above the horizon at birth (waxing) or below the horizon at birth (waning). The health will be stronger with the Moon above the horizon, rather than below. Hard aspects (afflictions) are not as strong when the Moon is waxing or increasing in light.

**PATHOLOGICAL TENDENCIES:** The Moon rules diseases that are periodic, return time and again, as in epilepsy, vertigo, menstrual problems, swellings, migraine headaches, and gout. Rheumatism is a Moon disease, caused by the retention of wastes in the joints and fascia. Cancer is a Moon disease, caused not only by retention of wastes but also morbid bacteria, fungi, and viruses. Moon diseases today are epidemic, as obesity, lymphatic stasis, tissue puffiness, autointoxication, fungal/zymotic disorders, and worm infestation affect nearly all industrial populations. Moon diseases are accentuated by working under artificial lights or at night, drinking water from underground pipes and/or obtained from recycled wastes, eating devitalized food stored in refrigerators and freezers, breathing stale, foul or polluted air; and eating slaughterhouse meats.

The foods and spices that benefit Moon afflictions are those ruled by the Sun and Mars. The Sun produces fruits and vegetables which when eaten raw and/or fresh, will vitalize the individual and ward off disease. The old adage, fresh is best, aptly applies to the health rules.

**ANATOMY AND PHYSIOLOGY:** Lymphatic system, breasts, mucous membranes, menstruation/fertility/uterus in pregnancy, stomach and alimentary tract.

#### ARE YOU A SUN OR MOON DOMINATED PERSON ?

The night is ruled by the Moon, and the Sun rules the day. The ancient astrologers believed that those born during the day are more ruled by the Sun, whereas those born at night are more ruled by the Moon. Moon activities tend to raise the action of morbid germs, while the electric action of the day tends to destroy them. Night activities are less vitalizing than daytime activities. Females and Moon people tend to suffer more at night when ill. Moon people are more restless, inconstant, and changeable. The Moon rules the personality and lower mind, while the Sun rules the intellect and higher mind. Health tends to return when one begins to "see the light".

## MOON in SAGITTARIUS

The Moon in Sagittarius indicates an alert and active personality, a love of physical exercise and travel and a fondness of animals. These natives are very optimistic, good humored, jovial, and ideal companions. Their personalities are emotionally adaptable to changing circumstances and different relationships. If the Moon is afflicted, indolence, disappointments in life, and self-indulgence are characteristic.

The Moon in this sign portends nervousness, unregulated breathing, colds after over-exertion, sciatica, and a tendency for falls and fractures as well as sports injuries. Women may have menstrual irregularity and a restless sexual nature.

**SUSCEPTIBLE AREAS:** Bowels, thighs, back.

**AFFLICTIONS:** Bronchitis, rheumatism especially about the hips, gout, kidney stones, weak vision, bowel disorders.

**BENEFICIAL FOODS:** Olive oil, pineapple, grapes, almonds, sunflower seeds and walnuts.

**FOODS TO AVOID:** Restrict intake of foods high in sugar.

**RASHI HOMEOPATHIC MIXTURE:** Bismuth metallicum, gelsemium, natrum muriaticum, kali bromatum, calcarea carbonica, carbo vegetabilis, ammonium muriaticum.

## MERCURY

Mercury, when well placed in the nativity chart, indicates a good and balanced mind. It rules the cerebral hemispheres. Ill-aspected and afflicted, it shows a tendency to various disorders of mental reasoning, bad judgment, nervous disease, and tendency to gamble, swindle, insomnia, and a lack of spiritual calm. The location in the chart shows what body parts may be prone to neuralgia.

Mercury rules Gemini and Virgo, therefore it manifests in diseases related to respiratory and digestive disorders, particularly of nervous origin. Physiologically, Mercury rules the respiration and breath. Mercury afflicted at birth indicates a tendency to shallow breathing. The Hindus believe rhythmic breathing is necessary for direct link between the soul and mind. Unrhythmic breathing severs this connection leading to nervous conditions,

those easily influenced by others, proneness to depression, and even insanity. Proper and unregulated breathing beginning in early life leads to a cascade of pathological actions including lack of intellectual development, oxygen deficient blood, tendency to overeat since the diaphragm does not "massage" the stomach due to stifled breathing, lymphatic stasis since breathing opens the lymph channels, and lethargy due to lack of vital force and sluggish pranic currents. Mercury placement indicates much more than the mundane astrology books indicate.

Mercury is considered a neutral planet, in that its transmissions are governed by the aspects to other planets in the chart. When Mercury conjuncts the Sun, the ego is involved; aspected to the Moon, the subconscious and habits; to Jupiter, exaggeration, etc. When Mercury's nervous messages are distorted by the rays of another planet, inaccurate reception of information and inappropriate neural commands are likely. Simply, response does not match stimulus resulting in unbalanced behavior. If the large planets are involved, this can translate into important health consequences.

**PATHOLOGICAL TENDENCIES:** Mercury's chief influence is on the nerves. In regards to aches and pains, the placement of Mercury in the sign of body rulership shows tendency to affliction when ill-aspected. Thus, Mercury in Aries shows the tendency to headaches, in Taurus a tendency to laryngitis and sore throats, in Gemini chest pains, etc. To offset Mercury afflictions and thus reduce tendency to aches and pains, the native must learn proper and rhythmic breathing. Taking up study of yoga or Chinese Ch'i Kung would be of great benefit.

**ANATOMY AND PHYSIOLOGY:** Nervous system, nervous faculties; breathing, the hands, the touch; organs of speech and hearing.

## MERCURY in ARIES

This nativity is one of mental alertness, resourcefulness, intuitiveness, yet impulsive and fiery, quick in thought and speech, often contentious, and antagonistic. There is a tendency to be wordy, and often to exaggerate though unconsciously. Here one is clever in lines of thought, and if the planet is favorably aspected, instant comprehension and an inventiveness of mind are marked characteristics. These natives are fond of reading, writing, and have literary associates. If the planet is not favorably aspected, mental order should be cultivated. If well-aspected they are broad-minded and

tolerant of the opinions of others, of a studious nature, quick to grasp situations and ideas, neat and orderly. When afflicted they tend to leap before they look. Their minds may be too vacillating and they tend to avoid responsibility. Mercury in Aries indicates nervous individuals that frequently reveal very quick tempers. This position can indicate headaches from nervous strain. The native would benefit with regular massage and foot reflexology.

**SUSCEPTIBLE AREAS:** Reproductive organs, legs.

**PATHOLOGICAL TENDENCIES:** Nervous or hypertensive headaches, an overactive mind and overworked brain, insomnia, astigmatism, vertigo, neuralgia (especially facial), lumbago and renal pains; uterine complaints, disorders; Bell's palsy.

**NERVINES:** Carrot juice, artichoke, fennel.

## VENUS

From the days of Hippocrates, father of Western medicine (Fifth century B. C.), the ancients emphasized the value of diet and exercise as the prime methods of restoration of health and longevity. The ancient figurines of women, known as the "Venus statues", depict a bottom heavy, obese figure of a woman. Some of these Paleolithic figurines are believed to be more than 20,000 years old. They are found in all areas of Europe, as far away as Russia, and they all show women with huge, fat hips and buttocks. Today, it is known as the "Venus Syndrome", the connection between Venus and the lower body fat, today referred to as "cellulite" - the thickening and laxity of connective tissue beneath the skin, around gelatinous pockets of fat, which traps toxic matter and body wastes.

Venus is the principle of harmony, equilibrium, homeostasis, and thus rules the body's hormonal secretions. The Moon and Venus rule strongly over the affairs and health of women. It rules over all regulatory and secretory functions, especially the female sexual hormones. It rules the chemical composition of the body's fluids, acidity and alkalinity, sodium-potassium balance, and the other mineral ions. The planet is basically benefic in action, but in hard aspect frequently points to numerous little disorders, showing a general relaxation of the system and body tone, but eventually debilitates the native as the years pass. Its afflictions are generally maladies due to indiscretions in diet and habit.

**PATHOLOGICAL TENDENCIES:** Venus has traditionally been associated with diabetes. Hard aspects to Venus point to lack of homeostasis, lack of tone, congestion and swelling of the body's tissues; cyst formation; and kidney disorders. Venus also rules over the veins and indicates such disorders as varicose veins, hemorrhoids, vascular spiders, etc.

**ANATOMY AND PHYSIOLOGY:** Homeostasis, hormonal balance, ovaries, kidneys, venous system, tissue tone, nutritional functions, skin and complexion.

## **VENUS in ARIES**

This position inclines the native to be affectionate, imaginative, with an idealistic temperament, yet changeable in feelings and romantic in love. There is popularity with the opposite sex while individuals with natal Venus in Aries rush to enthusiastically embrace relationships of all kinds. They enjoy having fun and their passionate eagerness can be inspiring and contagious, but sometimes results in them appearing rude. The combative nature of Aries also means they can be too aggressive in forcing their attentions or affections on others. Their social instincts are friendly and they tend to be popular. Afflictions to this planet indicate general extravagance of one's expenditures. This position can indicate mucus congestion in the head and nasal passages; eczema of the head and face; gastric headache from overeating rich and starchy foods.

**PATHOLOGICAL TENDENCIES:** Skin troubles due to abuse of cosmetics, eczema, yellowness of the complexion, facial eruptions; ill health from abusive habits and lethargy; uterine complaints, disordered womb; nasal catarrh; congestion of the kidneys due to abusive dieting.

**ASTRINGENTS/TONICS:** Green tea, radish.

**SUSCEPTIBLE AREAS:** Kidneys, feet.

## **MARS**

Mars is known as the "lesser unfortunate", and Saturn is known as the "greater unfortunate", as both are considered malefic planets. The action of Mars is acute and violent, heating, inflammatory, and febrile. Mars rules one's physical energy, expressed as either self-assertiveness and healthy efforts, or aggression and hostility. Mars actions include arousal, erection, and penetration. Mars diseases are traumatic, contagious, burning,

blistering, leaving scars, pock marks, and disfigurements. They are diseases that arise from anger, frustration, madness, and wickedness. When Mars is well aspected, it shows a strong constitution, good physical endurance and independence. Natives under strong benefic influence are practical, handle instruments well, and make good surgeons and dentists. When unfavorably aspected, the native is prone to fits of fury, argumentative, and liable to accidents.

Esoterically speaking, Mars, like the Moon, is one of the planets that loses its influence as spiritual faculties are developed. It is a planetary influence where its principal expression - anger - always brings reciprocal negative reactions of the worst kind. To better understand its influence in the native, the house location indicates the external conditions in the life of the native that needs spiritual development. The zodiac sign location of Mars indicates the body's susceptible areas where the negative emotion of anger will raise havoc and disorder.

**PATHOLOGICAL TENDENCIES:** Inflammations and scars on the body parts ruled by the zodiac sign or house of its placement; alterations in blood chemistry, especially glucose, calcium, magnesium; geloses and myogeloses in muscular tissues; liver torpidity and congestion; genitourinary infections; hypertension and hypertensive headaches, migraine.

**ANATOMY AND PHYSIOLOGY:** Body heat, inflammatory response, adrenal function, formation of hemoglobin and blood clots, digestion of food, muscular activity, glycogen storage and liver function, genitals.

## MARS in CAPRICORN

In Capricorn, Mars is exalted, and this position indicates a courageous, pioneering nature. These natives are tireless workers, capable of carrying responsibility, possessing good organizing ability, and they often attain positions of authority and prominence. These individuals are often responsible for bringing about greatly needed changes, and establishing institutions and structures that ultimately benefit many people other than themselves. If Mars is well aspected by Neptune or Uranus, the native may acquire knowledge of the sacred mysteries, and become proficient in the study of astrology or occult philosophies. An afflicted Mars in Capricorn may indicate various difficulties through friends and acquaintances and conflicts with authority. People with this affliction also have a hasty temper and a vindictive disposition. Rejection in business or romance is not something they accept easily, and they continue to relentlessly pursue their

goals in any way they think will work. The influence of Capricorn may mean a certain ruthlessness in their nature leading to a competitive nature. The native is prone to problems with the gall bladder, periodic nausea and skin disorders. One should avoid animal tallow-based bar soaps and use esthetically proper cleansers. This Mars placement indicates accidents affecting the limbs, which are usually the result of the native's own foolhardiness. It also indicates stomach ailments. These natives should eliminate tea, coffee and heavily spiced foods. A vegetarian diet is recommended.

**PATHOLOGICAL TENDENCIES:** Skin disorders, dermatitis, eczema, psoriasis, pruritis, eruptions, etc. worsened by dietary indiscretions; disorders of the arms and shoulders, knee problems; tendency to hysteria; legs that bruise easily; gout; rheumatic fever, jaundice; injury to the bones; gastric disorders.

**ANTIPHLOGISTICS/COOLANTS:** Beet juice, horsetail, skullcap.

**VULNERARIES:** Calendula, aloe.

**KARMIC TENDENCIES:** Assassination by a stab wound.

**SUSCEPTIBLE AREAS:** Arms, shoulders, knees, legs.

## JUPITER

When favorably aspected, Jupiter shows one's tendency to benevolence and jovial disposition. These natives are courteous, refined, law abiding, and honorable. When adversely aspected, it denotes lawlessness, self-indulgence, carelessness in meeting obligations, and gluttony which results in ill-health.

Medically, Jupiter in the natal chart rules the liver, the main organ for balance and detoxification, reception of the intestinal portal circulation, and control of fat utilization. Thus, Jupiter rules fat metabolism. It rules the arterial blood, and the functions of digestive assimilation, especially in regards to the liver. Jupiter also rules the adrenals and the storage of glycogen, and thus has influence over the stamina and muscular power. The placement of Jupiter points to those herbs and dietetics that will best suit the native for detoxification and periodic cleansing of the bowels and thus the liver.

Although Jupiter by nature is benefic, it has a malefic influence when in hard aspect to the Sun, Moon or Ascendant; and in the sixth house. Most of its maladies are accentuated by indiscretions in diet leading to blood disorders, toxicity, and fatty accumulations.

**PATHOLOGICAL TENDENCIES:** Obesity, toxicity, hypertension, abdominal fullness, diseases from "high living", stroke, hemorrhagic diseases, jaundice.

**ANATOMY AND PHYSIOLOGY:** Liver functions, especially detoxification and glycogen storage, production of urea and bile; fat metabolism; blood and arterial system; growth hormone.

## JUPITER in AQUARIUS

Jupiter in Aquarius, when well-aspected, indicates a humane, optimistic, original and philosophic mind. The native is fond of friends and company and is interested in science, mysticism, literature and music. This is a good aspect of general success in life, but if Jupiter is afflicted it makes these individuals restless, nervous and erratic with a lack of inclination for serious work which is bad for their health.

**SUSCEPTIBLE AREAS:** Feet, arms, shoulders, breast.

**PATHOLOGICAL TENDENCIES:** Hypertension with edema, swelling of the ankles, poor circulation and impure blood, apoplexy, palpitation; lumbago, flying pains and colic; disorders of the arms.

**LIVER CLEANSING:** Red vegetables and fruits - beet, radish, strawberries, peppers, etc. mixed with carrot juice to taste.

## SATURN

In Greek, Saturn is known as "kronos", from which our word "chronic" is taken. Permanent disease is signified by the placement of Saturn in the chart, and its course and attack by the motion of other planets. Its action signifies binding, crystallizing, cold, dry, hardening, depleting, obstructing, retarding, and suppressing. The afflictions of Saturn are for prolonged periods, whereas Mars afflicts more acutely, for short periods.

Saturn's placement in the chart is associated with the solid matter of one's body, ruling all dense components and processes. Saturn in any part of the

horoscope is considered an affliction to the zodiac sign, house, and parts of the body so ruled. It tends to weaken and make one more liable to disease, and the sign and parts ruled are usually considered the most vulnerable, even to cause death through disease and malignancy. Those parts ruled at birth by Saturn indicate reduced nerve and energy supply, insufficient oxygenation, accumulation of tissue acids, and thus fibrositis, myositis, and rheumatism. The planet Saturn indicates subnormal conditions by inhibition, retention, and suppression. The medical astrologers at the turn of the century stated that carcinoma is most liable to occur in that part ruled by the sign that Saturn is in at birth. Saturn also has rulership over the blood's clotting factors, the parathyroids, and calcium metabolism.

Saturn's afflictions come from lack of self control, spiritual development, and materialistic tendencies. When manifested negatively, Saturn's principle action is quite simply fear. The hard aspects indicate opportunity to come to terms with a specific kind of fear. The type of fear is indicated by Saturn's aspects (conjunct, square or opposition) to the Sun, Moon, Mars, Mercury or Venus.

**PATHOLOGICAL TENDENCIES:** Typical Saturnine problems are chronic skin complaints, stiffness of the joints and muscles, deformity; dental problems; deafness; depression; slowed atrophy and functioning of the body's processes; scleroses of the body's tissues, rheumatism from accumulated tissue wastes in the sign or house of the nativity chart.

Subluxations of the spine are partial dislocations of the vertebra which impinge and put pressure on the nerves passing through them, shutting off nerve supply and causing irritation and pain leading to disease. Along the lines of chiropractic philosophy, health is maintained by a correctly aligned spine that requires periodic adjustments by manipulative therapy. Palpation and X-ray discover these deviations but your astrological chart can identify weak areas that will be chronically affected. Each sign of the zodiac, and malefics placed in them, tend to afflict the vertebra, especially the vertebra ruled by the sign in which Saturn is found at birth. Such subluxations tend to be the major one throughout life. For example, the sign Libra rules the kidneys and if Saturn is here at birth, the 10th, 11th, 12th dorsals, and 1st lumbar will be afflicted the most, and this is known before examination. From a chiropractic or osteopathic standpoint, the emphasis of treatment should be in the area where Saturn was afflicting at birth as this area will show stasis, restrictions, stiffness, and congestion.

ANATOMY AND PHYSIOLOGY: Skin, bone and joints, teeth, hearing, ossification.

## SATURN in ARIES

Aries is the sign in which the Sun is exalted and Saturn is in its fall. Nevertheless, it indicates a certain amount of poise, depth of reasoning, patience, perseverance, tact and diplomacy. In emergency situations these natives remain cool and clear-headed. They know instantly what must be done, and proceed unhesitatingly, as though directed by a Higher Intelligence. When Saturn is adversely aspected the person is easily angered, usually broods over supposed wrongs, and tends to be vindictive. A jealous partner and difficulties through marriage are indicated. Also the possibility of financial loss in the prime of life. Success becomes a matter of learning to control their physical, mental, and emotional reactions, an ability that can only be developed through maturity and experience.

Saturn is a sign of adhesions. In Aries, adhesions develop in the scalp's fascia, inhibiting circulation and thus hair growth. Regular scalp massage offsets this tendency. Yellowish patches or spots may occur around the eyelids (xanthomas). Poor dental hygiene, halitosis, and bowel disease are also seen. The brain also tends to be under oxygenated, therefore deep breathing exercises are indicated. These individuals should absolutely surround themselves with clean and fresh air.

SUSCEPTIBLE AREAS: Breast, arm.

PATHOLOGICAL TENDENCIES: Apoplexy (stroke), baldness; ear pains, otitis, deafness; facial distortions, blemishes; tooth decay (esp. upper teeth), toothache; frequent colds in the head; tendency to low spirits and melancholy; stomach and liver disorders, bad breath, catarrhal disorders, sea sickness; weak eyesight; fatigue and tiredness due to impure blood and kidney retention of toxins; backache due to exposure of cold causing acid crystals in the tissues; arthritis.

COUNTERACTING STIMULANTS: Cayenne pepper, cinnamon, garlic, ginger.

RULING VERTEBRA: Atlas, axis; influence over 3rd, 4th, 5th cervicals.

KARMIC TENDENCIES: Death by animal bites.

## URANUS

Uranus rules your electrical life breath, and thus your avenues for personal as well as societal freedom. It indicates potential for originality of thought and expression, yet its energy is not accessible to much of humanity at this time. In society it rules the apparently radical ideas and people that are years ahead of their time. They lead to revolutionary events that upset established structures. The Aquarian age of which we are now entering is ruled by Uranus. Its cycle began with the discovery of electricity which it rules and is now interconnecting everyone on the planet with a synthetic telepathy.

Karmically, all aspects of the personal planets - Mercury, Venus, Moon, Mars, Jupiter and Saturn, or the Ascendant - indicate areas of life where there is a strong urge for freedom of expression without restraint and the need for constant stimulation and excitement. This planet also represents the capacity to be high-strung, excitable, and temperamental. The motives of Uranus thus represent the purpose of radically repolarizing an individual's past lives, and open one up to new experience either through stimulating, shocking, and even traumatic crises to find new ways of living. People who are ruled by Uranus are lovers of freedom, rebellious at least restraint, intuitive and inventive. They are aviators, high level mechanics, or deal directly with electricity. It also tends towards erratic behavior and can make people irritable and brusque in manner.

ANATOMY AND PHYSIOLOGY: Skin, bone and joints, teeth, hearing, ossification. Uranus rules all the rhythmic processes of the body. It rules the movement of the whole digestive tract from mouth to anus. Thus, the common symptom of its afflictions are spasmodic manifestations and disrupted rhythms - muscles spasms, shock, cramp, strictures, ruptures, paroxysms, and contortions.

## URANUS in VIRGO

Uranus in Virgo, when well-aspected, gives a keen, original, scientific and mechanical mind, and a strong and well developed intuitional faculty that is good in business. It brings success in teaching, chemistry, electronics, metaphysics and the arts. Uranus afflicted in Virgo indicates the native is apt to become subject to strange ailments, prone to hypochondria, irritability of mind, and a tendency to become a burden to themselves and those around them. This position also indicates disappointment in life because of limitations in employment or dealing with employees.

**PATHOLOGICAL TENDENCIES:** Over-active mind, hypochondria, irritability; strange ailments; cramps in the fingers; bowel complaints, constipation, colic, appendicitis, flatulence; functional diabetes.

**ANTISPASMODICS:** Dill, parsley, peppermint.

**KARMIC TENDENCIES:** Death by drowning (afflicting the Moon); strange ailments; sudden illness in the digestive organs and abdomen.

## NEPTUNE

Neptune takes approximately 164 years to orbit the zodiac, taking about 13 years in each sign. Its position is a kind of cultural expression manifesting itself with imaginative and creative faculties of a generation. Its location points to a common spiritual destiny shown by the sign that it occupies. As one gets older, new generations may then seem strange in style, cultural or artistic expression, something not innately understood by the native.

People with an afflicted Neptune should always be on guard for deception, trickery, and fraud. Since each one's life is the outcome of former living, afflictions of Neptune offer ready channels where enemies from past lives or evil spirits can gain entry into our sacred temple. Forewarned is forearmed and confrontations can be stepping stones upward in life, or misery leading to drug abuse and apathy. Afflictions to Neptune may also indicate a previous life of extreme asceticism where the physical body was ignored or neglected leading to a leaky aura in this life. The corroborating symptoms are tiredness and need for a lot of sleep. There is also susceptibility to tuberculosis as Neptune is the ruler of this disease. Sunlight counteracts the tubercular diathesis and helps to harden and anneal an etheric body with a leaky aura. Likewise, a favorably aspected Neptune may let one drone away one's time, neglecting valuable opportunities offered for soul growth by following the deceptive lines of least resistance. Neptune rules illusion and abstract thinking, as well as those areas of life where conditions are not always what they seem.

**PATHOLOGICAL TENDENCIES:** Neptune's placement in the natal chart points to conditions which are difficult to diagnose, or are wrongly diagnosed. It has rulership over the aura and etheric body. Its afflictions denote laxity and weakness of the vital force, and subnormal conditions, as lack of development, undersized body or organs. Its placement in the chart and hard aspects has a strong rule over wasting of tissues leading to decay

and disintegration. Its pathological manifestations are lethargy, drug abuse, intoxication, and general lack of tone throughout the body.

**ANATOMY AND PHYSIOLOGY:** Pineal gland, appendix, right-brain function.

## NEPTUNE in TAURUS

Neptune in Taurus, when well aspected, gives the native a kind disposition and an inclination towards the beautiful, artistic forms in nature. These individuals are fond of music and the pleasures of life. This is also a good aspect for the acquisition of land or property. When Neptune is afflicted in Taurus it indicates an overly sensuous nature with a strong tendency to overindulge.

**PATHOLOGICAL TENDENCIES:** Affections of the eyes and throat, abscess, chest pains; diverticulosis; vertigo; throat and tonsillar affections; middle ear disturbances.

**HERBAL STIMULANTS:** Cardamom, oats, thyme.

## PLUTO

Just as your Sun sign represents your true identity in this life, Pluto's house represents an old pattern of identity from the past. It is a past pattern of life that is carried over into this life. We can say that Pluto's house is that area of life where complete regeneration is needed. Compulsive behavior and even ruthlessness needs to be transformed into willful intentions yielding great powers of perception and insight into the subtle forces of life. Plutonian people can make great healers simply by touch or vision.

The aspects of Pluto to other planets gives an indication as to how that transformation can bring new understanding and regeneration. Whether the aspect is "hard" as in square or opposition, or "easy" as in a trine or sextile, determines whether one has an innate knowing, or will meet some hard karmic destiny. There is an enormous potential for power by discovering those fields of experience in the house of Pluto. It heals when it is tapped.

**PATHOLOGICAL TENDENCIES:** Medically, Pluto's energy is concerned with eliminative processes, both physical and spiritual. The energy represented by Pluto is life-giving and cleansing. Pluto's transits are said to

destroy the old forms in order to bring in the new. It's pathological manifestations are abscesses, malignancies, ulcers, and poisonous bites.

ANATOMY AND PHYSIOLOGY: Reproduction, defecation, expulsion of waste matter.

## PLUTO in TAURUS (1852-1884)

Pluto in any sign always represents fundamental change, upheavals, and drastic transformations. Pluto's last transit in Taurus was from 1852 to 1884. During this period significant world changes began to occur in science, medicine and industrialization. Practical machines were invented that lead to a revolution in labor and finance.

PATHOLOGICAL TENDENCIES: Sarcoma.

## HOUSE 1

The first house and the sign that rules this house, is also known as the Ascendant or rising sign, or that zodiac point which is actually crossing against the horizon at the exact time of your birth. It denotes your outer personality and physical constitution. The Ascendant is about interaction with you and the environment, the meeting point between the individual and the external world. Its sign denotes the animal heat and corporeal vigor. The planet ruling the sign of the Ascendant is considered one of the principal ruling planets of the horoscope. First house placement is so important, that the degree of the sign rising is treated as though it were a planet with regards to aspects with other planets and with regards to pinpointing details of the health chart of the native - his/her mind, body, strength, diseases subject to, etc. The sign on the Ascendant denotes the body's conductance or resistance to the inflow of prana or vital energy. It is conducted best by fire and air signs; and resistant if the rising sign is of water or earth elements.

In every sense the first house should be called the native's personality as it shows what is on the surface, how you appear to others, how the world sees you or what we call the native. Thus the horoscope is also called the nativity chart. Outsiders are attracted to you by this sign. It accounts for those glaring contradictions we find in human behavior. You may feel yourself as sexy, yet it is not picked up by others or appears that way due to your rising sign's influence, and vice versa. It explains why some people are forever getting in trouble or attracting trouble through no intentions of their own. When the first house contains no planets, it means individuality is not a

matter of personal concern, these individuals accept themselves "as is". If the first house contains one or more planets, then the native is consciously concerned about some aspect of his identity. There is some dynamic or hang-up that needs resolution, karmically speaking.

Planets in the first house indicate the native is aggressive and strives to be "first" denoted by the planet or planets posited. These individuals usually have a difficult time resting and relaxing their bodies which they need to learn in order to insure good health. First house people tend to be individualists with a forceful drive and ambition in life.

The first house shows the organic elements, the physiological factors, and the physical characteristics which determine the strength and resistance of the body. The Ascendant and the first house represents the "original impulse of individual being", or the self as a particular vibration and rhythm, and the unique soul destiny of the individual. It indicates essentially the type of experience through which he/she will best discover who they are. The zodiacal sign on the Ascendant normally tells us the "dharma" of the individual, the central potentiality which the conscious person is seeking to actualize. If there are planets in the first house they indicate the kinds of functions which will be most valuable in the process of discovery of one's authentic being. Thus, the planets and the first house ruling planet show the way to impel performance of specific acts.

One can often discover what zodiacal sign was rising at birth (if time of birth is not known) by studying a person's facial features and expression. The head symbolizes the essential character of the individual. The head is ruled by the first house. The first house rules the body form, constitution, and temperament. The physical appearance, strength and vitality, weight, height, color of hair and eyes, etc. are largely determined by the rising sign, degree rising on the cusp, etc. The position of the first house ruler and planets rising modifies these features. The zodiacal sign ascending denotes the part of the body more liable to affliction from external causes such as trauma and infection.

The benefics, Jupiter and Venus, in the first house at birth indicate a good constitution, whereas the malefics, Saturn and Mars, denote scars, birthmarks, moles and defects of the head. This house at birth, and by direction, signifies all diseases of the head, face, eyes, ears, nose, and mouth. This house is closely associated with the feelings, sensations, emotions, manners, passions, and dispositions of the native. In this regards, it explains

why the Sun sign does not reflect all the features of the native, and why the Ascendant and the Moon sign are of equal importance in the analysis of the health horoscope.

Regarding the compatibility of healer and patient, the rising sign in each natal map should be in harmony, belonging to the same triplicity, that is in trine or sextile to each other. If the patient has Aries on the Ascendant at birth, his/her healer should also have a fire sign on the Ascendant, as in Leo or Sagittarius. If the healer employed has Cancer, Libra, or Capricorn on the Ascendant it would tend to be adverse, if not in results, certainly in relationship and cooperation. The sextile and trines naturally tend to inspire confidence and faith between healer and patient.

**AFFLICTIONS:** Head and face, endocrine disturbances which affect the mental states, brain tumors, high fevers, meningitis, migraines.

**HEALING COLOR:** Indigo

**EMPOWERMENT COLORS:** White, pink, red, champagne

## CANCER ASCENDANT

A Cancer Ascendant indicates those who are emotionally oriented. These individuals are sympathetic and sentimental. They are happiest at home and enjoy assisting others. Many people with Cancer rising are intuitive if not psychic. These natives may appear vulnerable to others if their dress and style is too "homey" or loose. Therefore they should remember that leaving home without paying attention to their dress shows.

Pale sickly skin and complexion will have to be overcome with diligent skin care and careful tanning (These natives must watch out for the Sun with this rising sign). The chest is often bigger than the hips. They have a strong tendency to retain water, leading to lymphatic stasis. Their emotional orientation is indicative of an addictive nature, which means it is difficult to escape a battle with excess weight or addictive substances. Roundness of face, pale, sensitive skin, and baldness or finely textured hair are physical attributes identified with Cancer Ascendant. Cancer is considered the weakest sign of the zodiac, owed to the vulnerability to outside influences. The emotions, breasts, stomach, lymphatic and digestive system are apt to be their most physically vulnerable areas. In this sign, one is apt to succumb easily to disease. A rising sign well aspected tends to offset this weakness, strengthening the constitution and recuperative powers.

The rising sign is divided into thirds, or 3 "decanates", which have a powerful influence over the appearance and form of your body. The sign is simply divided into three 10° aspects as follows: 0-10° first decanate, 11-20° second decanate, and 21-30° third decanate. Each decanate is ruled over by a planet. The first ten degrees is ruled over by the indigenous sign ruler, the second takes on the qualities of the next elemental ruler, and the third the successive element sign ruler. Thus, the first decanate of Aries is ruled by its Mars, the second takes on the qualities of Leo, and the third would combine the qualities of Aires and Sagittarius, and so on throughout the zodiac. Simply locate the first house on your natal chart and note which degree is rising in the sign listed. This gives you your decanate. If in the last few degrees of the sign, e.g. 26° or more, you would also take on characteristics of the first decanate of the following sign.

**FIRST DECANATE APPEARANCE:** Ruled by the Moon, it tends towards a stout figure, prone to puffiness, obesity, and full bosomed. The Cancer tendency is to gain weight in the mid-section.

**KEYWORDS:** Feelings, imagination, home-loving, maternal, mediumistic.

**SECOND DECANATE APPEARANCE:** The Mars influence of Scorpio affects the appearance as well as the disposition. The eyes are close-set and the expression wary and frequently furtive. The nose is pointed with a sharp gaze.

**KEYWORDS:** Passionate, fertile, extravagant, rebellious, magnetic.

**THIRD DECANATE APPEARANCE:** The Pisces decanate gives expanse to the girth, full bosomed, obese, and puffy.

**KEYWORDS:** Mystical, religious, poetic, musical, emotional.

**EMPOWERMENT COLORS, GEMS, AND FRAGRANCES:** Green, russet, silver; beryl, moonstone, sapphire; camphor, lemon, jasmine, sandalwood.

**MODERATING COLOR:** Violet.

**PATHOLOGICAL TENDENCIES:** Lowered vitality, lymphatic stasis; pale, sickly complexion with hard aspects; catarrhal disease, chest disorders; tendencies to ill health in childhood, weak constitution; large full abdomen,

swollen breasts; poor digestion, dyspepsia, edema; gluttony, hypochondria, lethargy, debility, obesity.

## HOUSE 2

The second house rules material matters, property, wealth or poverty, etc. It denotes the level of acquisitiveness as a driving force, or the level of greed for power and wealth. This tends to affect the native's homeostasis since possessions are related to the value placed on food and nutrition, habits in acquiring food and other immediate necessities of life. The pituitary gland, which controls all endocrine glands, falls under this house.

The belief or realization for those so gifted, adds another dimension to understand second house questions. One's tendencies, faculties, and karma produced from past lives and carried over into the present rests with the concept of management, that is, intelligent use of one's inheritance, possessions, artistic talents, or even inventions. The second house can show the mere fact of ownership in today's essentially "unspiritual society", or one who lives according to spiritual values and surrenders to mankind assets to promote human evolution. It shows then if a person can advance beyond the traditional use of possessions, or is acting merely as an agent for the "ghosts of karma" (Geg in Tibetan), with a life filled by ancestors, driven by socio-religious hatreds and fears.

When no planets occupy this house, it indicates the native does not see money as a major issue in life. With planets in this house, the affairs of other houses which those planets rule are brought to bear influence on the matter of obtaining money. For example, if Saturn is in your second house, tenth house matters, such as your profession, is where the money will easily flow from.

People with planets in the second house have overwhelming desires to prove their self-worth, establish themselves in society by big factors as indicated by the house rulers outlined above. For example, if the Moon is in the second house, fourth house matters like the home are important and the native will desire a big home or big family. After having established their nest eggs, (with the personal planets Venus, Moon, Mars, Jupiter placed in this house) gluttony is not uncommon. The native will also learn the karmic problem of this house - happiness is the one thing that cannot be bought.

**AFFLICTIONS:** Problems with homeostasis - blood and electrolyte

changes, intake of nutrients - diabetes, obesity, hypoglycemia; disorders arising from vaccination.

HEALING COLOR: Yellow

EMPOWERMENT COLORS: Green, lemon, citrine, brown

## CANCER on 2nd HOUSE

The second house shows how the native earns money from his/her own efforts and from what resources. Cancer is usually fruitful where money is concerned, as the native has a maternal instinct about finding ways to enhance security and protect the family assets. Those with Cancer on the second house may hoard their money, seeming miserly as they are afraid to spend what they feel is security. On the other hand, they may spend money frivolously as a way of consoling themselves when they are emotionally upset.

## HOUSE 3

Astrology speaks of the third house as that of brothers and sisters, and close relatives. It actually means the earliest newborn environment and of one's grown relationship to it. The relationship of the child to his/her environment is basic and substantial in the formation of his/her character, and of responses to life. The third house refers to the early environment and to persons who acted within it - close relatives, guardians, siblings, etc. It also shows in the child "coming to terms" which is at first entirely unconscious and instinctual, later becoming the foundation for human intelligence, and consciousness.

No planets in the third house means response in a natural fashion. One or more planets in the third house indicates a self-conscious need to express thoughts. It may sometimes indicate speech difficulties. The native is often asked too often to help other people, brothers and sisters. The disease of "other people" can lead to great frustrations and nervous stress. These individuals need to learn to say no, take regular breaks in peace and quiet, take short naps after lunch, etc. for the health to improve.

Malefic planets in this house tend toward mental instability and chaos unless well aspected. It shows traumatic experiences such as child abuse, fights with siblings, rebellion, etc. What differentiates this house from its opposite, the ninth house, is that of experiences involving direct personal

contact with the close environment of the individual, resulting in habits and proclivities. It indicates physical actions, and transportation, especially within your immediate environment. Benefics in this house, when well aspected, indicate a well balanced mind. It rules the fingers, hands, chest, lungs, the lower mind and wakefulness.

**AFFLICTIONS:** Disturbed breathing rhythms, reduced vitality, lack of oxygenation, nervous tension, mental instability.

**HEALING COLOR:** Orange

**EMPOWERMENT COLORS:** Yellow, indigo, white with red

## LEO on 3rd HOUSE

The third house deals with the native's immediate speaking, writing, and communications audience in his/her immediate work or professional environment. Leo ruling the third house indicates individuals who express themselves rather dramatically and creatively. These natives must be heard and will not back down in arguments or disagreements. They tend to travel to see those whom they are romantically involved with. Their need for communication may turn them into constant telephone users or people that are often found using the internet.

## URANUS in 3rd HOUSE

The third house deals with practical knowledge, short journeys, brothers and sisters. When favorably aspected, it gives an intellect that is capable of coping with most conditions, aptitude for inventions, short story writing, advertising, draftsmanship, and salesmanship. This position also indicates a strong intuition and gives a certain predisposition towards psychic faculties. The nature of Uranus is spasmodic and unpredictable and when Uranus is afflicted, the mind is erratic. There is possible estrangement from brothers and sisters, and trouble through neighbors. If afflicted by Mars or Saturn there is a liability to accidents, explosions and car wrecks while on short journeys; if by the Moon or Mercury, criticism by ordinary persons of little intellect, litigation over correspondence, by writing, by copyright, etc. Plans often develop complications for one strange reason or another, usually due to circumstances beyond the native's control.

**PATHOLOGICAL TENDENCIES:** Erratic thinking; spasms of the hands and fingers; repetitive stress injuries, carpal tunnel syndrome, tennis elbow.

## HOUSE 4

The fourth house is said to have two basic meanings - the soil or secure foundation in which man is rooted; and the "heart" or fundamental rhythm of the individual self. It is indeed the Nadir of the chart, the midnight point of consciousness, where "God-experience" can be had. The vertical line of the birth chart - Zenith to Nadir - points upwards to the sky (Zenith) and downward through the spinal column at the center of the globe. Unity comes by centering one's "Hara" or vital energy with that of the Earth.

Its sign and planets refer to the kind of feeling which spontaneously mobilizes and directs the energies of the organism, often called "gut feeling". The Ascendant tells who we are, while the Nadir shows what we are, at least potentially, where we stand. It is the power implied in "being a person", yet in today's global economy it is basically conditioned, if not entirely determined, by socio-cultural patterns and media manipulation, rather than by ancestral family values. Thus it indicates the beginning as well as the end of various cycles in the native's life, including old age, the end of life and death, the various conditions which affect the close of life, its diseases, worries, wealth or poverty, etc. The nature of the end of life will be told by the planets in this house, and the sign on which the cusp begins the part or organ where the complaint will lie.

If there are no planets in the fourth house, the native accepts his background and family and makes the best of it. If there are one or more planets in the fourth house, then conscious attention is directed towards his background. He/she has reasons to question, if not doubt family matters. Some may have unfortunate liabilities to overcome before they make headway in life. Malefics in this house can indicate early childhood traumas which are best recalled and cleared by past life regression. Neurosis can result from repressed anger. Parental attitudes and conditioning have led to unhealthy if not neurotic habits. All these matters of childhood trauma and abuse are judged by the fourth house.

At the biological level, the fourth house symbolizes the acquirement of nutrients to satisfy basic physiologic needs to meet daily routines and obstacles. It is the energy needed for intercellular exchanges and for adjusting the body to changes in temperature and the demands of the physical environment. It rules over the body water, interstitial fluid, and lymphatic environment. In a mentally and emotionally developed person, one's personal power (Hara) is available for self-expression and social

contact. In an undeveloped or immature being, confusion sets in with mixed impulses carried over from previous lives and those values family and society has forced upon the individual. This results in oral fixations, hormonal imbalances, lymphatic stasis and obesity. It is a being out of rhythm, breathless, confused and never satiated.

This house rules the breasts, lungs, stomach; inheritance; the birthplace and home place; the mother in the male chart and father in the female chart. Benefics in this house at birth indicate that the native should live in his native homeland, if possible, for insured good health and fortune, leading to a happy end of life. Malefics here point to a short life of the mother or father, according to the sex of the horoscope; disease, distress, and worry in old age.

**AFFLICTIONS:** Oral fixations, overeating, nutritional disturbances, obesity, anorexia; diseases of the stomach, breasts, and lungs.

**HEALING COLOR:** Violet

**EMPOWERMENT COLORS:** Silver, green, russet, brown

## **VIRGO on 4th HOUSE**

The fourth house is the area of private concerns, emotional security and how we inwardly feel about ourselves. If there are no planets in this house, there are generally no problems in the way these individuals accept themselves. The cusp on this house shows the general tempo of the subjective self. Virgo ruling the fourth house indicates a native willing to assume humility towards life and accepts a need to be involved in service. Having typically come from a demanding background, the native in turn is fussy and meticulous. The general conditions at the close of life will be well organized, in regards to wills, retirement funds, insurance, etc.

## **HOUSE 5**

At its highest potential, the fifth house shows the exteriorized power and a projected vision originating from a realm that is "super personal". The person thus becomes an agent for some great collective consciousness or planetary, evolutionary purpose. He/she becomes a lens through which light is condensed and brought into focus, at which point power can operate and work can be performed. This creative process, work, and its products are conditioned by the nature and temperament of the person. The person

acts strictly as an individual. To the extreme, he/she expects results that will bring fame, prestige, and ego-satisfaction.

The fifth house is the area of experiences which are essentially the outcome of emotions, as distinguished from gut feelings of the fourth house. Feelings are spontaneous reactions, whereas emotions seek an exteriorization, or "moving out" with synchronous organic changes and muscular movements. The fifth house is associated with gambling in any form, for money, business ventures, romance, etc. whenever one follows hunches, inner frustrations, or imagination.

Traditionally, the fifth house is considered to be the section of the birth chart (radix) referring to love affairs, versus a seventh house marriage. Fruitful signs and planets here denote many children, barren signs and planets here tend to deny children. This house rules the back, spine, liver, stomach, appetites, loves affairs and sexual appetites. This house is said by some to rule the soul.

Each house of the radix refers to power and unfoldment, as well as some great test of the developing individual. The zodiac sign on the cusp of this house and planets within should give the student of astrology clues as to the best way in which he or she can solve problems creatively. The Chinese character for danger, also means opportunity, depending solely on one's perspective and ability to be creative. The test of the fifth house is that of isolation, or emergence as a unique and valuable human being. The test of the second house is that of ownership and possessions. In the third house it is thought and how to handle ideas to approach challenges of one's environment. The fourth house test is that of stability. The fifth is creative self-expression.

No planets in this house means the native has little attraction to fifth house matters. He/she can take gambling or leave it. One or more planets in this house shows the native has a natural interest in art, pleasure, children, romance, or gambling. These natives may feel a great need for love. Their ailments can come from chaotic affairs leading to frustrated and fragmented lives. The root cause is insecurity. Naturally, the houses ruled by the planets in the fifth house contribute and inspire all fifth house creativity.

**AFFLICTIONS:** Heart disease (with malefics in this house), overeating, egomania, spinal disorders, liver problems, arteriosclerosis, hypertension.

HEALING COLOR: Purple

EMPOWERMENT COLORS: White, gold, green, red

## LIBRA on 5th HOUSE

The fifth house is where the ego extends into so-called pleasurable pursuits. Libra ruling the fifth house indicates the pattern for romantic attachments and fondness for social pleasures. The native enjoys dressing and eating well. These individuals seem to always get along famously with children. With gracious manners and charm, they get by with over indulging. They are apt to be very romantic lovers. Afflictions in this house indicate natives that complain and have difficulty enjoying life. It may also indicate problems in relationships that involve romance or children. The native, being inclined to the finer things in life, should watch his diet by restricting the intake of rich foods.

## HOUSE 6

The sixth house implies a crisis of perception, the period of personal readjustment, the time in one's life when one is forced to realize what he/she has done and whether success has come to rest or to haunt. Once a work is completed, the composer is often painfully aware of how it could have been produced better. A person's inner worth is often revealed when faced with experiences and periods of inadequacy, frustration, or defeat. These crises take their toll upon the body, require guts and fortitude, and great reserves of vitality. This house represents fundamentally, everything that deals with personal crises, the way to best meet them, and the direction of personal growth and transformation. The sixth house is somewhat karmic in nature by its perception or reason for duties, debts, and obligations.

The sixth house is known as the "house of health" and the sign on the cusp of this house indicates which body parts and organs prone to disease and affliction. Illness may be the direct result of some defeat of the vital energies unable to cope with a challenge to grow stronger, or an attempt by the soul to show a need for a revision in attitude. The sixth house shows a response of the individual to a social situation. Also, as a patient, one should not consult with a doctor whose natal Saturn is in the sixth house of the native, as one will find incompatibility or may even be poisoned by medication.

Natives with planets in this house may have a lack of self-esteem, be plagued by guilt, or seek the approval of others. All these negative emotions

affect the health with nerve related ailments, blood sugar problems, and intestinal disorders.

Benefic planets ruling this house or planets in this house show better health, while malefics afflict the mind and body. The sixth house in a broad sense governs disease, especially if there are planets in it at birth. It particularly rules the abdomen, belly and intestines, food affecting conditions of health, healers and physicians. The sixth house also rules aunts and uncles, servants, persons in employ, kindred on the father's side, small animals and pets of the native.

**AFFLICTIONS:** Hereditary diseases, general ill-health; abdominal disease.

**HEALING COLOR:** Aquamarine

**EMPOWERMENT COLORS:** Black, amber, scarlet, brown, dark blue

## **SAGITTARIUS on 6th HOUSE**

The sixth house deals with careers, routines, and health. The natives' obligations to others as well as themselves appear in this house. This is a house of positive thinking and the native is drawn to big business, corporations and large institutions. The native is generous in helping others, but works best unsupervised and on his/her own schedule. Afflictions in this house indicate the native may be sloppy and disorganized. The lesson is discipline and control. In this house of food over-indulgence runs strong and at times these people cannot stop eating. When preparing meals they like everyone else out of the kitchen. The native is fond of spicy food like Mexican or Spanish cuisine, and barbecue. Weight on everything, corporeal and job related, easily gets out of control.

**PATHOLOGICAL TENDENCIES:** Disorders and weakness in those parts ruled by this sign - buttocks, hips, coccygeal vertebrae, ischium; muscular system in general; sciatic nerve; iliac arteries and veins; liver; lungs.

**FOOD ALLERGY TENDENCIES:** Anise, champagne, clove, endive, expensive and imported foods, fig, maple sugar, root beer, sage, sarsaparilla, sassafras, anise, tea, truffles. These foods should be checked by electroacupuncture, bionutralizer, applied kinesiology, or by cytotoxic testing.

## MOON in 6th HOUSE

This position deals with health, occupations and labor. If favorably aspected, it denotes good health and gain through employment. If afflicted, it is particularly inimical to health during infancy and the native in late life is liable to suffer from digestive complaints. The health is strongly affected by fluctuating emotions, and in some cases hypochondria or psychosomatic illness results. If the affliction is from Saturn, chronic diseases are shown; if from Mars, inflammatory complaints; Sun or Uranus digestive and dyspeptic conditions are possible. In a woman's horoscope the afflictions usually cause trouble during menopause.

**PSYCHOLOGICAL TENDENCIES:** Persons with the Moon in this position usually have a strong desire to come before the public professionally, but unless it is favorably aspected they do better in a subordinate position employed by someone else than in business ventures of their own as the emotional demands are too taxing. If the person is an employer, due to his over exacting nature he will continually be changing help.

**PATHOLOGICAL TENDENCIES:** General ill-health, especially in childhood and with women; lowered resistance to disease (especially if afflicted or in hard aspect to the malefics), those that tend to bring illness on themselves; disturbed digestion, hemorrhoids, flatulence, liver toxicity; deformities; bladder problems; bronchitis. Diet plays a major role in determining the stability of their health.

**ALLERGIC TENDENCIES:** Milk and dairy products; the mustard group - cabbage, brussel sprouts, broccoli, cauliflower; coconut, cucumber, eggs, melons, mushrooms, potato, white wine. These foods items should be checked by electroacupuncture, bionutralizer, applied kinesiology, or by cytotoxic testing.

### PSYCHIC PURIFICATION:

**Bladder and Bowel Problems:** Anxiety, holding on to old ideas, fear of letting go. The resolution here is to release the old and welcome the new in the work place.

## MOON trine VENUS

The Moon trine Venus is a significator of a happy marriage when they occur in a man's horoscope. In a woman's horoscope this aspect operates upon the health, for the Moon is the planet of fecundity and has rule over the female functions. This aspect gives love of pleasure, music and art, and

an engaging personality. These individuals tend to attain general success in life. It indicates an optimistic and generous disposition but with an emotional body of excessive desires. There is an open-hearted, honest, fair and friendly nature of such people make them universally popular, especially with the opposite sex. This aspect strengthens both the reasoning faculties and constitution. The native has a strong mind in a strong body, and a powerful personal magnetism which may be used in healing the sick. They usually have the power of acquiring wealth which will increase if used in philanthropic enterprises of which these people are prone. This is one of the best aspects for general success in life both physically and spiritually. A large part of their inspiration comes through interaction with others, and they may be emotionally crippled if such interactions are not a regular part of their lives. These individuals are upset by disharmony in their relationships as well as in their environments, especially in their domestic environments.

**NORMERGIC TENDENCIES:** Good vitality in females with other good aspects.

**KARMIC TENDENCIES:** An artistic past, singing, performing; close family ties, harmonious domestic lives.

## HOUSE 7

The seventh house is closely related to the sign Libra, and thus marriage and partnership, the husband in a female nativity, and the wife in a male nativity are also related. This house shows the test of functional cooperation and participation between individual and society. Function suggests purpose, both inherent and potential, in man or woman. Purpose is only revealed as one operates within the group or global economy. It is the field of human experience that the person can be most basically transformed and can gain freedom. Planets in this house reveal compelling pressures and motives for destiny. In such cases, individuals may find themselves driven to enter into certain types of relationships as part of their destiny.

While the first house represents how the native appears to others, the fourth house shows how the natives sees himself or herself, the seventh house represents how others appear to the native. It represents those whose lives touch the native and how they respond. If the house is unoccupied by planets, he/she is comparatively free of the influence of others in most of his/her affairs. These individuals do pretty much as they please, but it also

means others do not generally help them either. The affairs of this house are always related to the area of another house where the ruler of the sign on the seventh cusp lies. If there are one or more planets in this house, the native is consciously dependent on others in some respect and other people tend to control his/her affairs. Natives with planets in this house may find it difficult to "stand on their own two feet". They feel accomplishments need to come through other people or their partners or spouses. The Sun located here is indicative of good health, while Saturn signifies a potential for a short life. Mars here, indicates a bad wife and sickness.

The seventh house also denotes the type of physician or healer required in health matters. It is important that the healer is compatible with the native depending on the illness. One should avoid healers who have Saturn on the Ascendant or sixth house of the patient. The following may be found useful:

Signs of Healers pertaining to the seventh house:

Chiropodist: Gemini, Virgo and Pisceans are especially adapted to this work.

Chiropractor: Gemini's give keen, sensitive touch.

Colon therapists: Those born under Virgo and Scorpio.

Dieticians/Nutritionists: Virgo is the sign which rules these matters.

Good Healers: Scorpio Sun sign and well aspected at birth.

Massage Therapists: Healers born under Scorpio bring strong magnetism.

Hydrotherapists: Healers using mineral waters born under the Sun sign Pisces, and Capricorns making good managers of spas and sanitariums.

Naturopaths: Those born under Virgo and Scorpio.

Nurses: Sun sign Scorpio, those born under rule of the Moon; the sixth house well aspected at birth; Jupiter well aspected in Pisces or the 10th

house (Virgo ascending or Sun sign is not favorable for nursing as they can be too negative, critical, and susceptible to take on the disease of others).

**AFFLICTIONS:** Brain disorders; diseases of the hamstrings, flanks, bladder, small intestines and navel, the kidneys, haunches and loins, diseases of the womb.

**HEALING COLOR:** Blue

**EMPOWERMENT COLORS:** Browns, swarthy colors, crimson, green

## CAPRICORN on 7th HOUSE

The seventh house deals with other people in the native's life, particularly those that attract attention as well as direct personal relationships. Capricorn ruling the seventh house indicates a native that is attracted to methodical, mature, and sure relationships. These individuals tend to be cautious and reserved when forming partnerships. Marriage is apt to be happier as the years progress than from the outset.

## MARS in 7th HOUSE

Mars in the seventh house indicates those who put much vitality and energy into relationships, marriage, business partnerships or joint ventures, and dealing with other people in general. It may indicate an early marriage, or a marriage that may be hard to establish. When well-aspected it indicates a capable, industrious and aggressive marriage partner. These natives are untiring in their promotion of the welfare of the family. If Mars is afflicted it may indicate an accident or sudden death to the marriage partner who may be of a domineering, quarrelsome nature. If one of the water signs, Cancer, Scorpio or Pisces is on the cusp he/she could also be liable to drink and be unusually attracted to sex, particularly if Mars is afflicted in Scorpio. It is indicated that the positive behavior of this sign is proper and loving interactions with the partner, as working alone can sap the vitality and desire to accomplish goals.

**AGGRESSION LESSON:** In no area of life is the emotion of anger of more danger to one's life and health. These natives should bring peace into their homes and watch everyone improve as well as themselves.

They are either the Angels of Light beckoning to the beyond, or they are the dark Guardians of the Threshold, whose memories are shaped by frustrations, denials in life, fears and sins of omission. In the twelfth house we meet the results of our passive acceptance of that which was, or our spiritual rebellion that helped make a new world. What is called karma may be so great that it stifles the individual identity of the newborn, or drowns out the rhythm of a new cycle of the man facing the probability of rebirth. This results in the new cycle, becoming no more than a repeat of the last cycle. According to ancient Indian philosophy, the last thought held in death determines the pattern of the future incarnation. One of the stranger characteristics of our linear, Western society is its inability to think in terms of cyclical processes.
